

## Pricelist Carrera Digital & Analog hardware extensions 1-3-2026

### New:

- 1) Analog controller for all car brands
- 2) Slot sensor module (for analog)
- 3) Slot sensor for all brands
- 4) Switch ID Reader

### Carrera Digital 132/124

LC Speed Controller (incl. cable) .....	<b>€ 25,00</b>
2x LC Speed Controller (incl. cable).....	<b>€ 45,00</b>
3x LC Speed Controller (incl. cable).....	<b>€ 69,00</b>

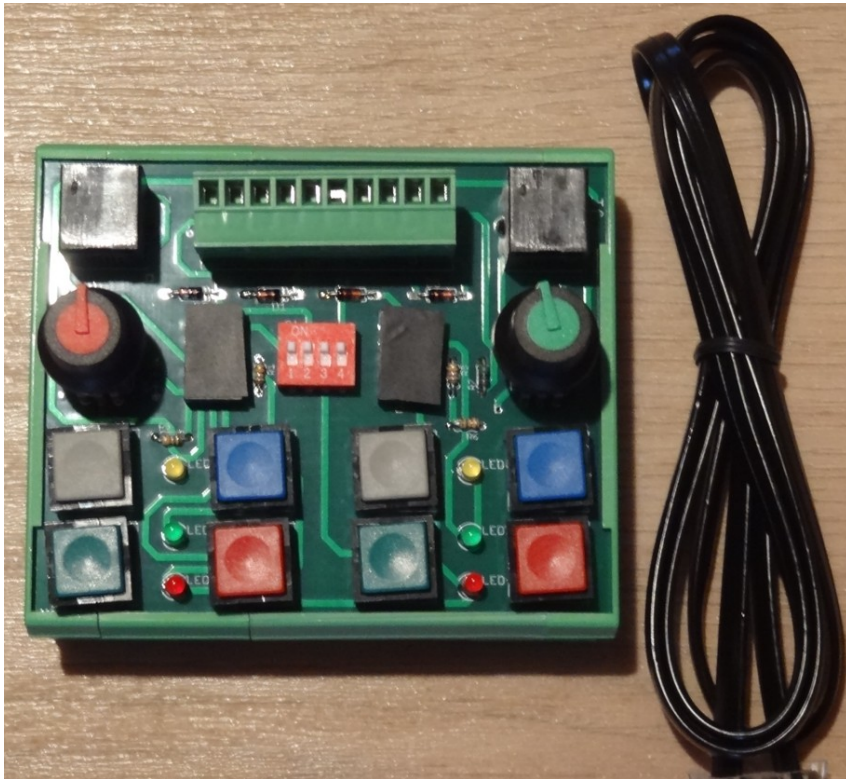

LC Speed Controller (incl. Cable, without housing) .....	<b>€ 15,00</b>
2x LC Speed Controller (incl. Cable, without housing).....	<b>€ 27,00</b>
3x LC Speed Controller (incl. Cable, without housing).....	<b>€ 39,00</b>

**Carrera Digital 132/124**

- Dual Speed Controller (incl. 2x cable)..... **€ 119,00**
- 2x Dual Speed Controller (incl. 4x cable) ..... **€ 214,00**
- 3x Dual Speed Controller (incl. 6x cable) ..... **€ 304,00**

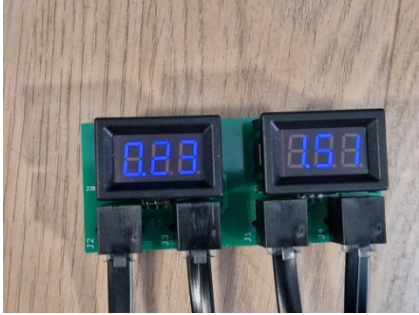

- Dual Speed Controller (incl. 2x cable , without housing) ..... **€ 99,00**
- 2x Dual Speed Controller (incl. 4x cable, without housing) .... **€ 178,00**
- 3x Dual Speed Controller (incl. 6x cable, without housing) .... **€ 253,00**

**Specify rotary knob colour with each order**

## Display for Dual Speed Controller

Double display with cable..... € 21,00

## Random generator (pulse) for Dual Speed Controller

Both pulse time and interval adjustable with LED indication. A separate pulse generator can be connected to each controller, which activates the 'light button'. While driving, this allows the car to change lanes at an unpredictable moment after passing a detection point of a switch.

(Requires an external power supply of 5V/ 100mA)

Random generator completely built..... € 20,00

## Extra

Cable 0,5 meter..... € 3,00

Cable 1 meter ..... € 5,00

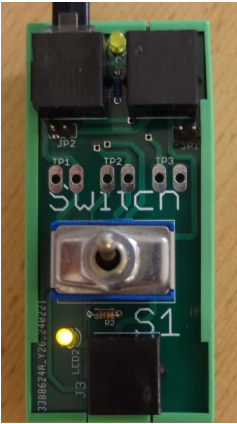

DIN rail ca 300mm..... € 12,50

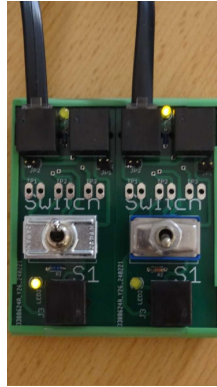

Other lengths on request

**Switch**

Switch single .....	<b>€ 19,00</b>
Switch double.....	<b>€ 35,00</b>
(including 1x cable 1 metre)	

Prototype single

double

**Remote control with interface (for CU 30352)**

Remote control .....	<b>€69,00</b>
Interface with Cable to CU .....	<b>€ 39,00</b>
Remote Control with Interface .....	<b>€ 99,00</b>

Remote control

Interface

**Standard 'LAN Cables' are required between Remote Control and Interface.**

Remote control requires a power supply of 12...15 Volt DC  
 When using multiple sets, only one power supply is required.  
 (These items are not part of the delivery, but can be ordered separately!)

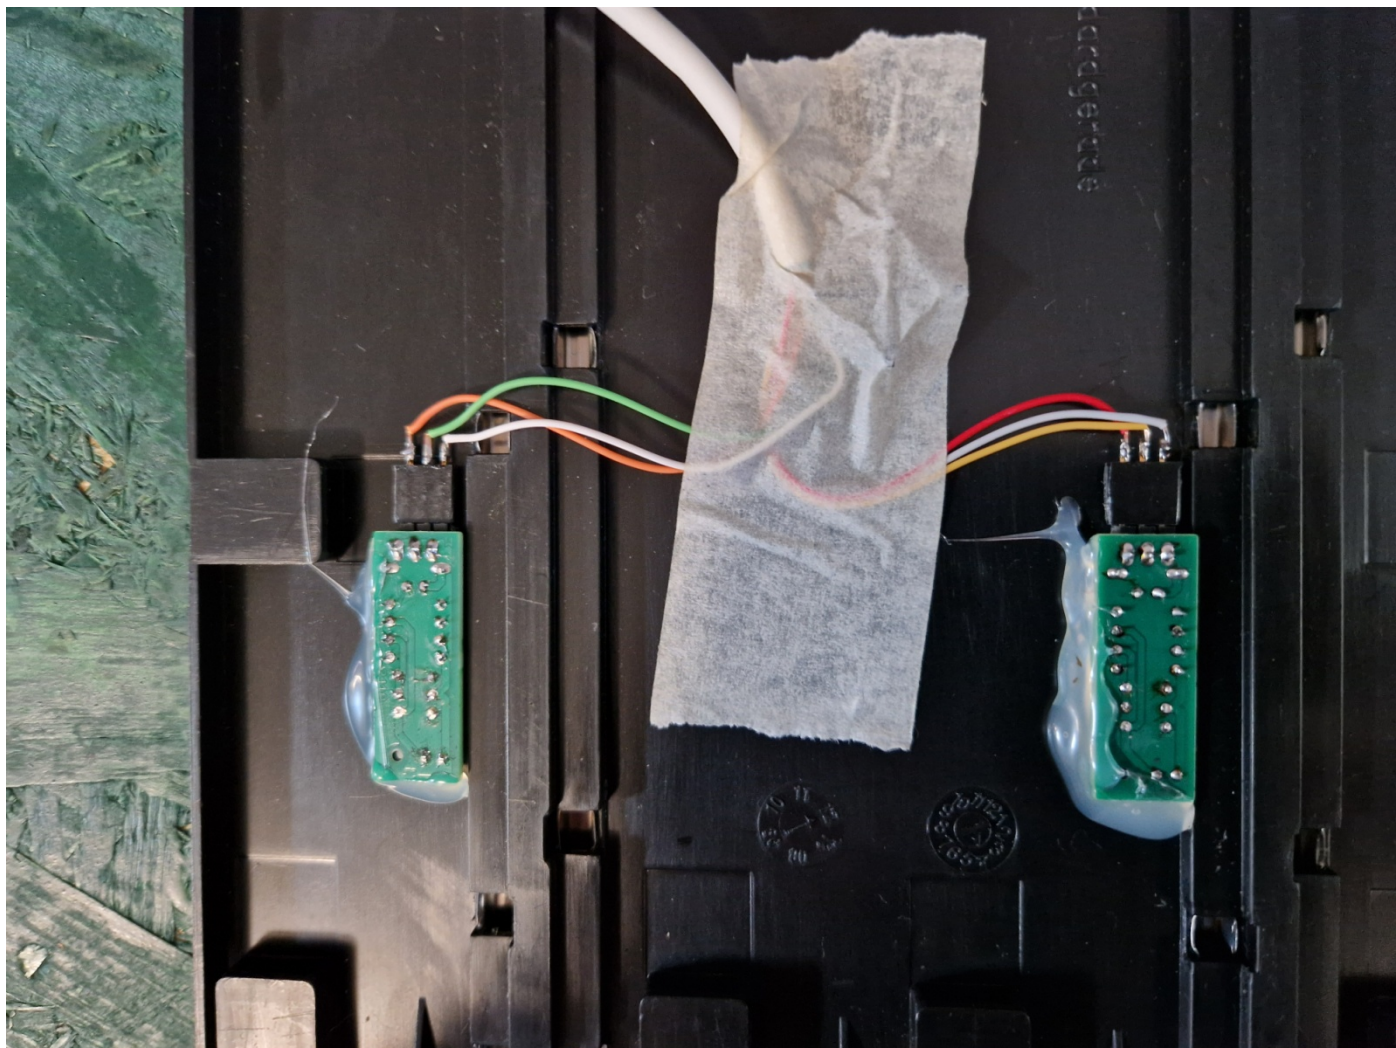

**Conversion of CU 30352 for remote control**

Adapting CU 30352 with flat cable .....	<b>€30,00</b>
---	---------------

**IR-Sensor**

2x IR-Sensor **completely built into Carrera track piece 20509 (used)** with cable at desired length. Cable has 6 wires with shielding.

2x IR-Sensor with 2 Metre cable ..... € 23,00  
Extra cable per meter..... € 1,25

**Other track section than 20509 possible on request.**

**ID Reader (standard) ..... € 49,00**

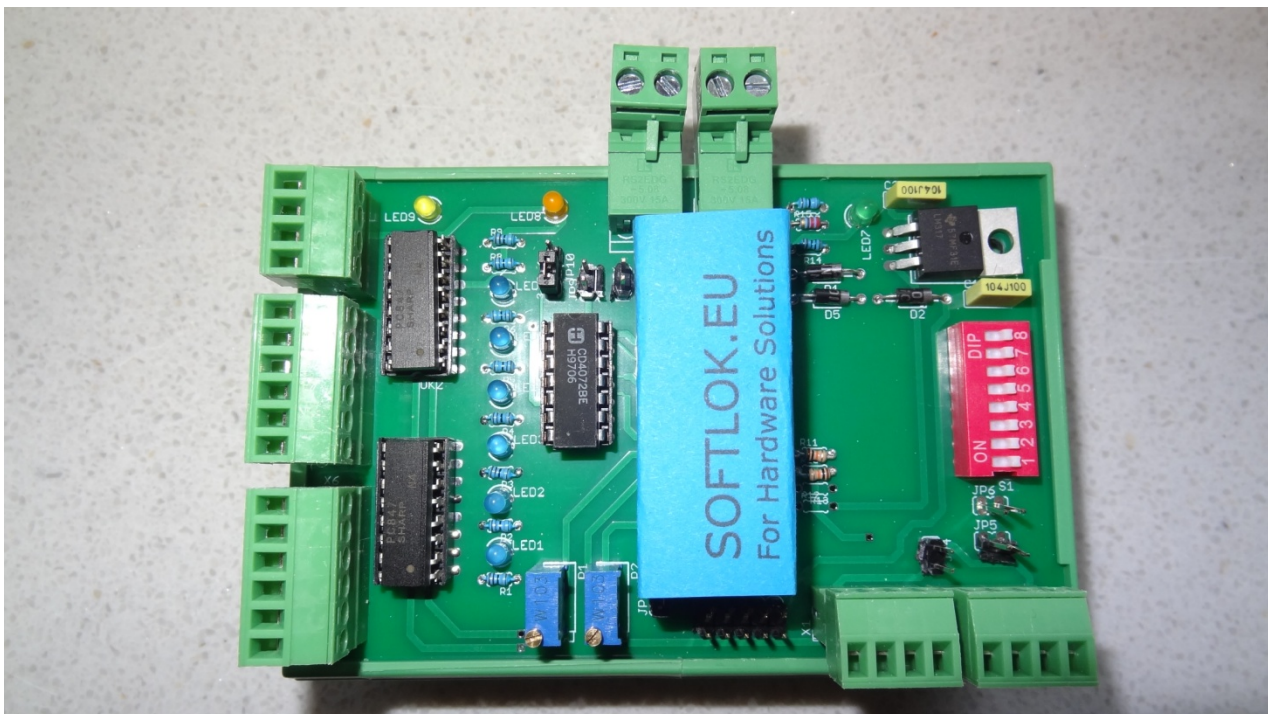

Reads ID 1...6 (via IR Sensors) and can directly switch an output depending on which ID runs over the IR Sensor (independent of a computer system).

**ID Reader (extended) ..... € 65,00**

Reads ID 1...6 (via IR Sensors) and can directly switch an output depending on which ID runs over the IR Sensor (independent of a computer system).

Equipped with connection for relay module, can also read ID-8

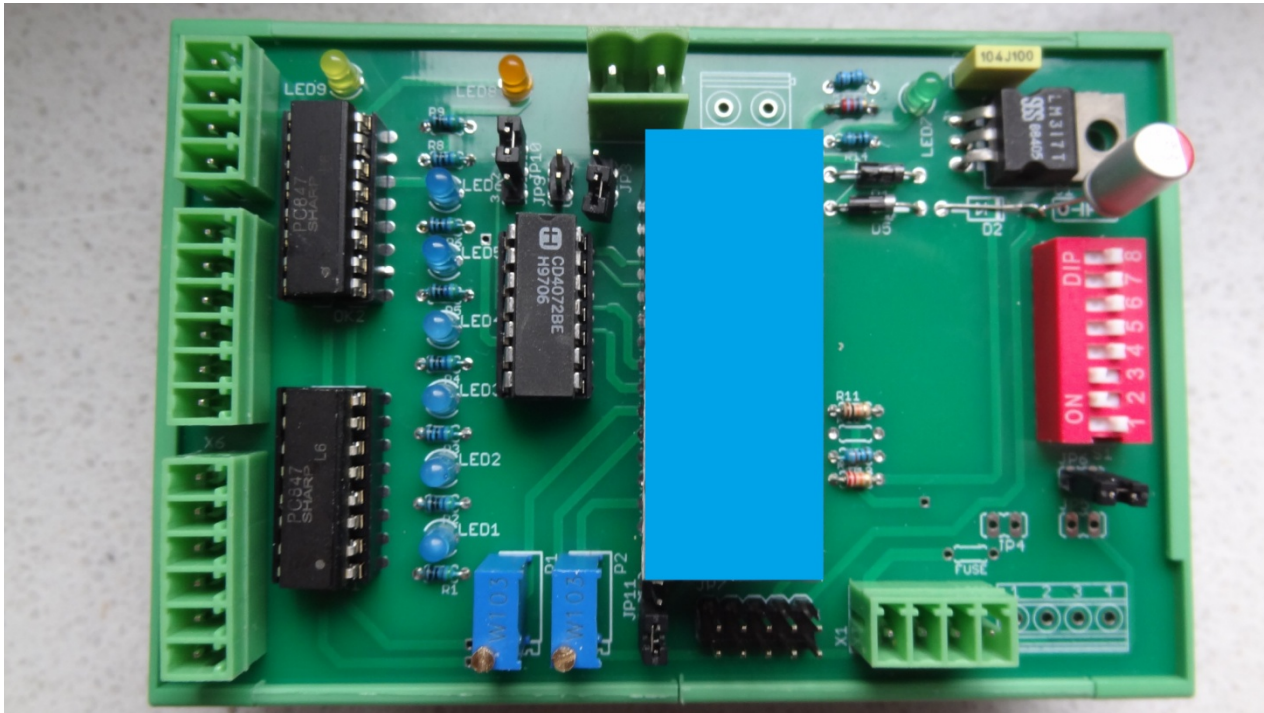

**ID Reader Power Supply 15 V ..... € 7,50**

Carrera Digital 132 & 124 ([www.softlok.eu](http://www.softlok.eu))

**Switch ID Reader ..... € 75,00**

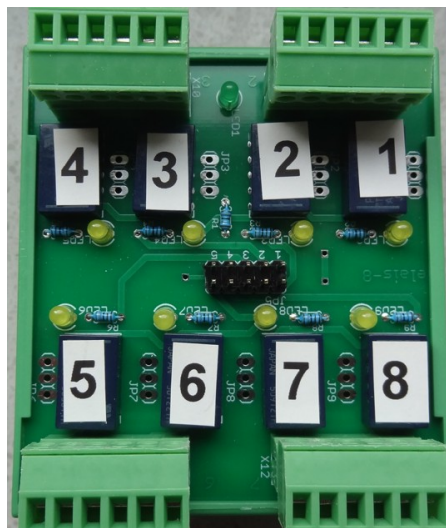

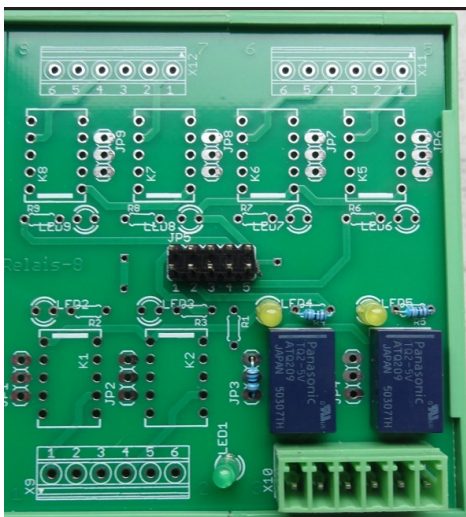

With the Switch ID reader, you can activate/deactivate Chaos with or without a computer.

Double-clicking activates the corresponding output.

**Switch ID Reader relay (2) extension ..... € 30,00**

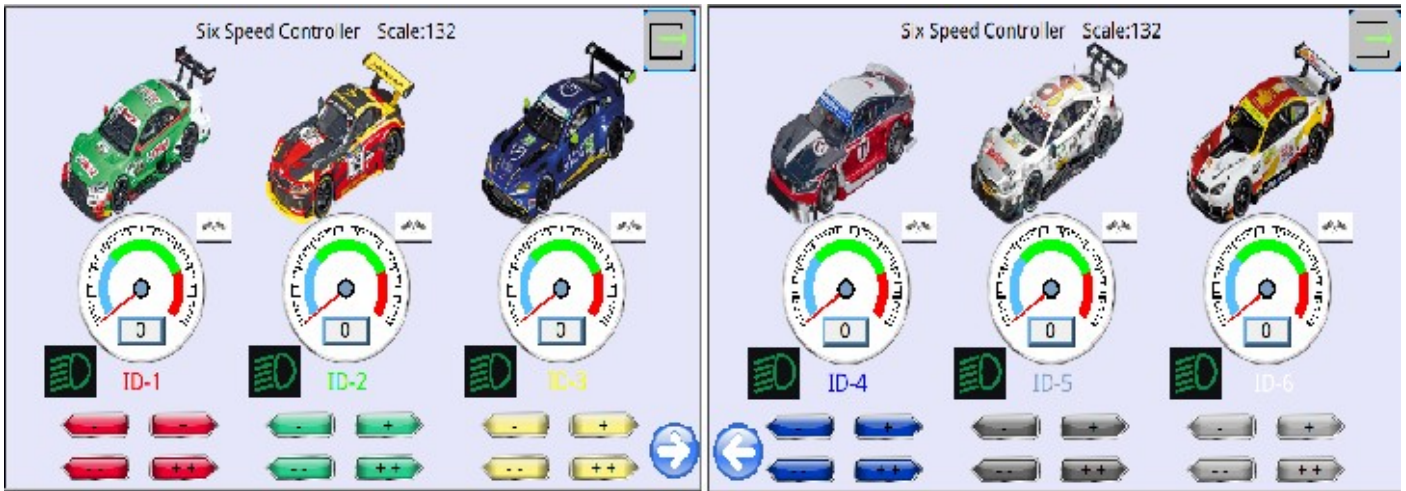

**Switch ID Reader relay (8) extension ..... € 50,00**

**Carrera Digital 132/124**

**Six fold Digital Speed Controller for Carrera Digital 132/124**

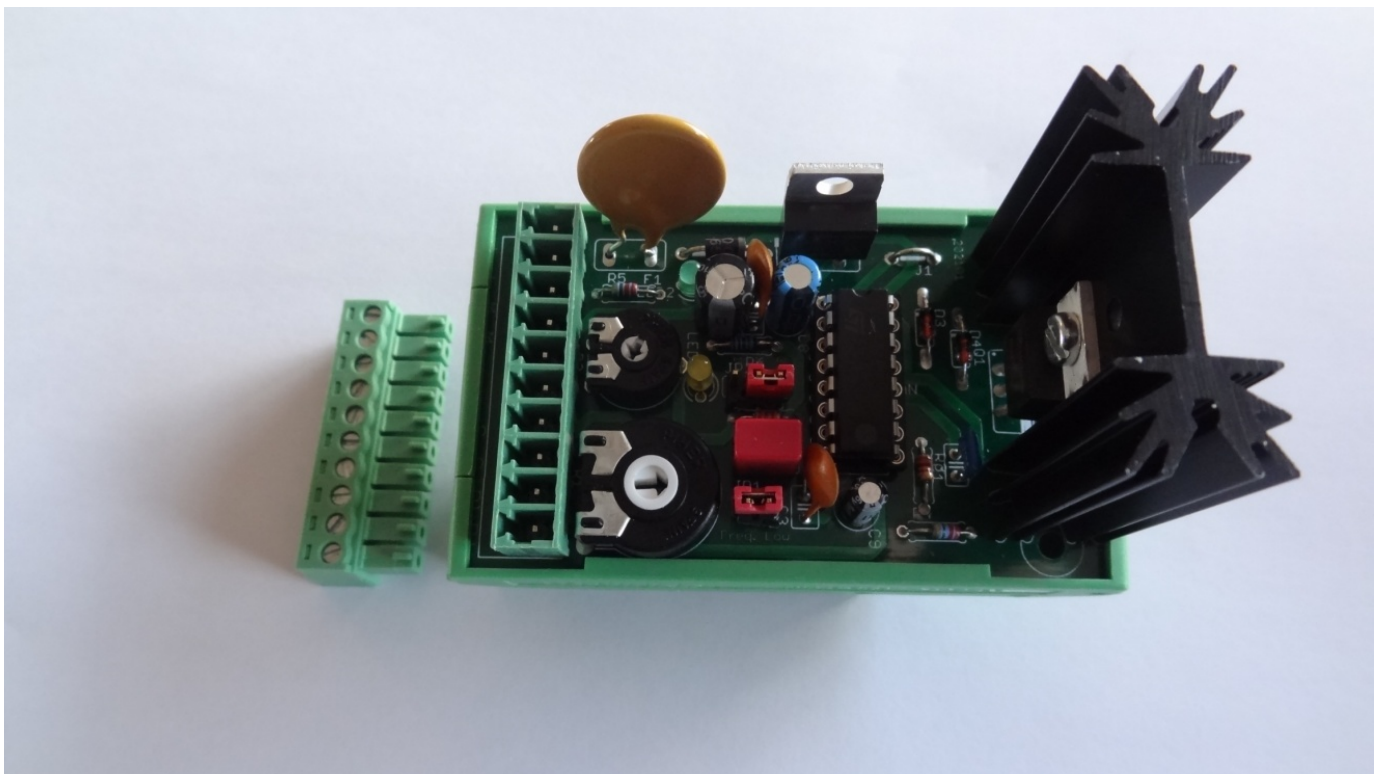

Tablet controlled ..... **on request**  
(See futher "Flyer Six SPC")

**All brands Analog**

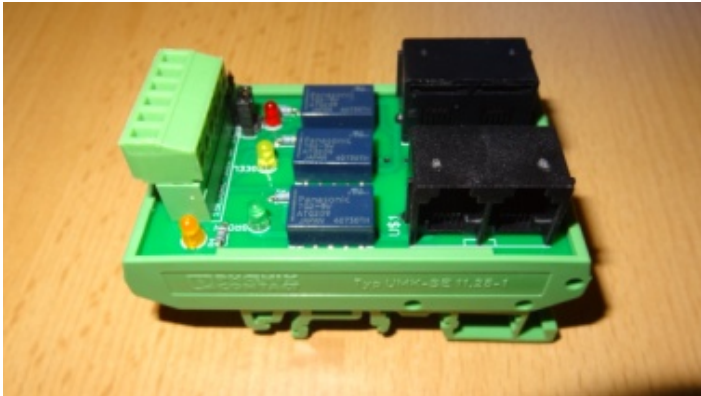

**PWM controller for analog cars**

PWM controller ..... **€ 52,50**

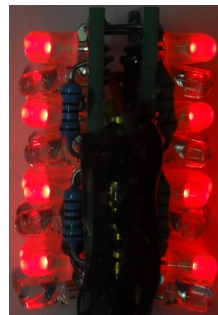

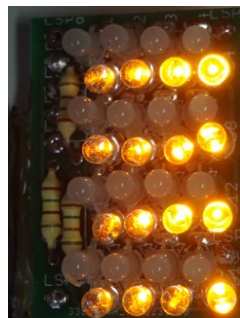

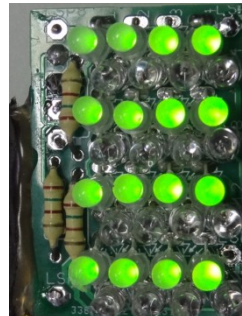

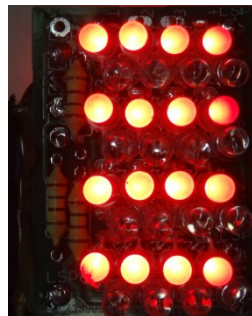

**Digital & Analog**

Control and distribute print for LED flag(s) ..... € 25,00  
(4x RJ12 connector for Led Flag)

**LED Flag in 3 colours**

LED Flag 3 colours **Red/Green/Yellow** ..... € 15,00  
(Supplied complete with pole and connector as kit)  
Available single and double

Double version

**Construction kit only:**

32 x LED, 1x PCB, 3x resistor, 1x brass tube (approx 10cm),  
1x cable/connector

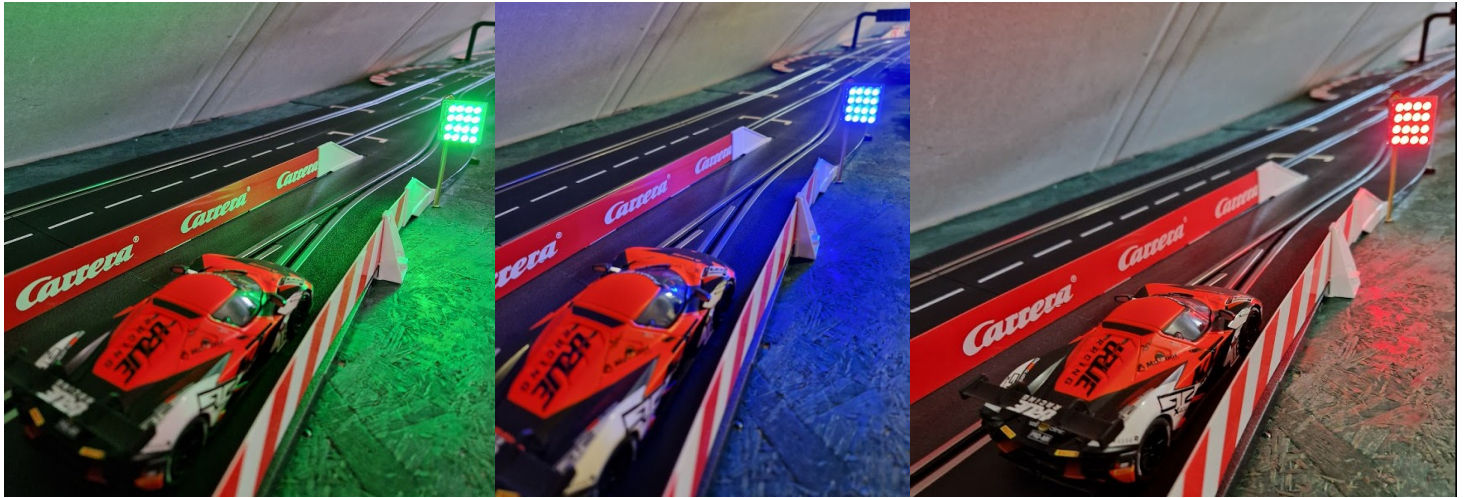

**Construction kit double:**

64 x led, 2x print, 6x resistor, 1x brass tube (approx 10cm),  
1x cable/connector

**LED Flag in 3 colours**

LED Flag **Red/Green/Blue** ..... € 13,00

(Supplied complete with pole and connector as kit)

**Construction kit only:**

16 x LED, 1x PCB, 3x resistor, 1x brass tube (approx 10cm), 1x cable/connector

**Cables for connecting the flags to this distribution board**

Cable 1 ..... € 5,00

Cable 2 metres ..... € 7,50

Cable 3 metres ..... € 10,00

**Guardrail lightning**

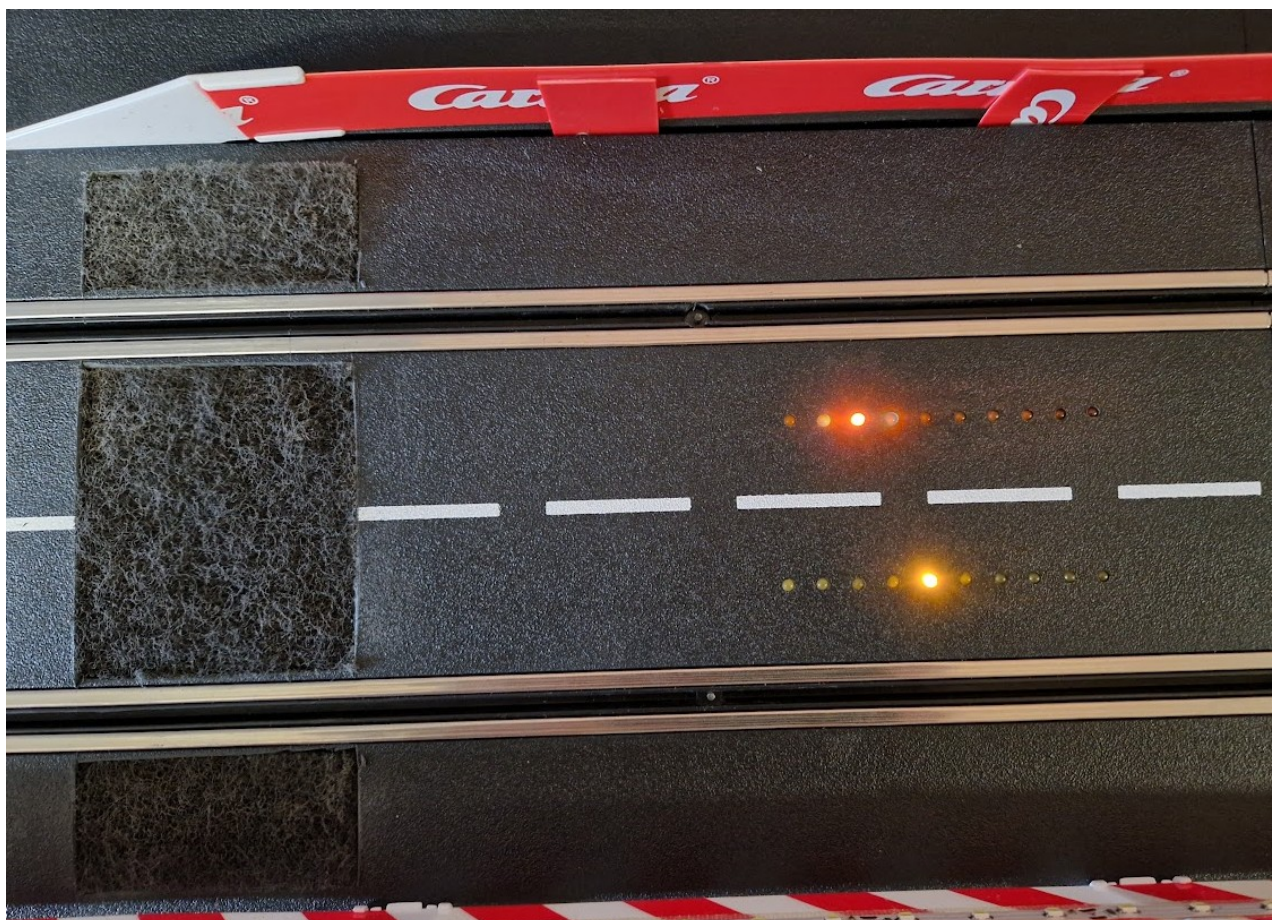

By metre (max 5 metre, in one piece) ..... € 9,00

Powersupply 12 V/ 1 Amp (suitable for ca. 10 metre) ..... € 19,00

Dimmer ..... € 25,00

**Polish station**

Polish tyres in Pit box (single slot) .....	<b>€ 30,00</b>
Polish tyres in Pit box (double slot) .....	<b>€ 55,00</b>

**Construction kit only:**

- 1x control board (completely built with parts)
- 1x running light PCB (completely built with parts), only solder LEDs yourself
- 1x Solenoid with spacers
- 1x polishing sponge (cut to size yourself)
- 1x Detailed description

**Construction kit double:**

- 1x control PCB (complete with parts)
- 2x running light board (complete with parts), only solder LEDs yourself
- 2x Solenoid with spacers
- 1x polishing sponge (cut to size yourself)
- 1x Detailed description

**Complete build with Carrera track piece and power supply (plug/play)**

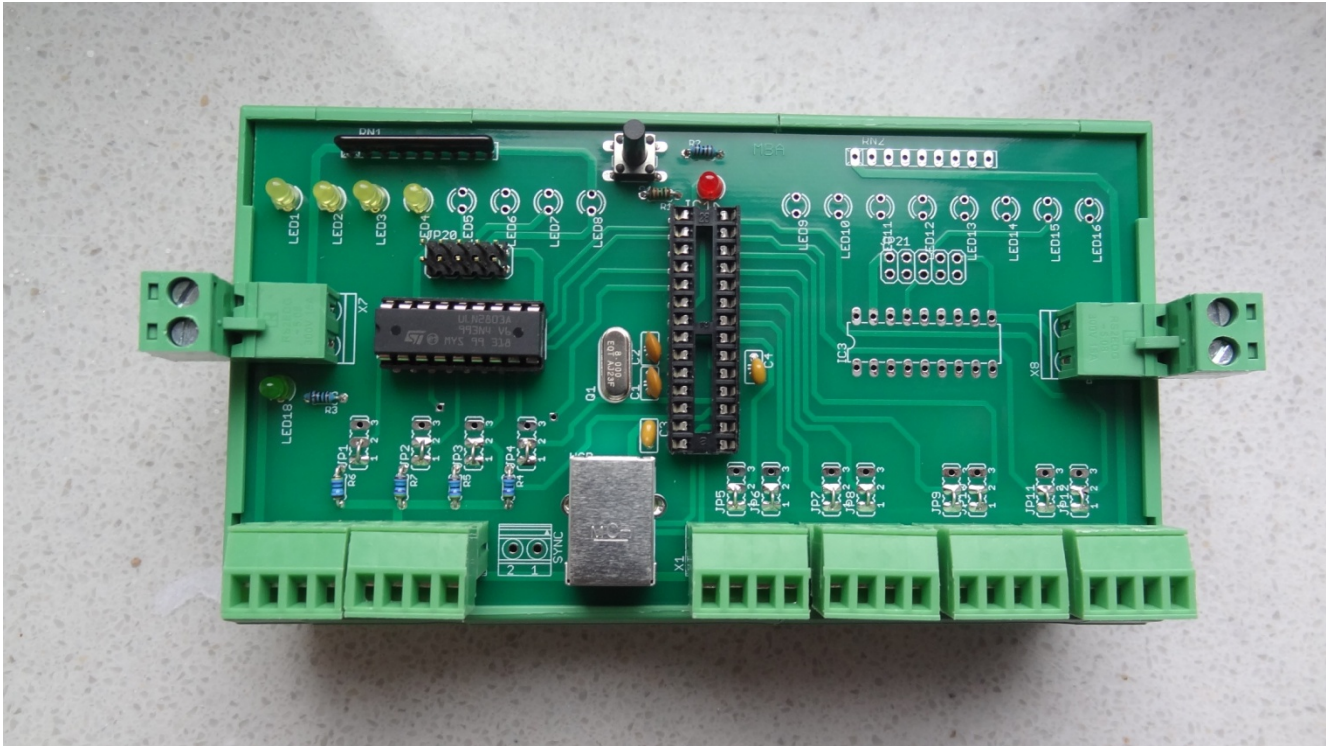

Tyre polishing in Pit street (double Slot) .....	<b>€ 150,00</b>
Tyre polishing in Pit street (single Slot) .....	<b>€ 140,00</b>

**Remote Control for each slot**

Receiver and transmitter(1 relay contact) .....	<b>€ 25,00</b>
---	----------------

**USB-Box**

USB-Box with USB cable ..... € 115,00  
(various versions possible)

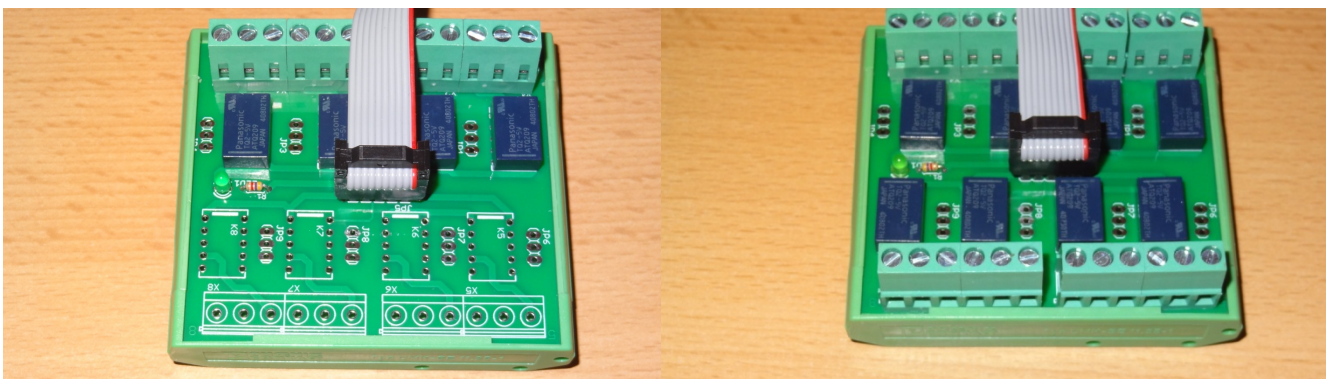

USB-Box 12 E/ 4 A

**Extension with 4 relay outputs**

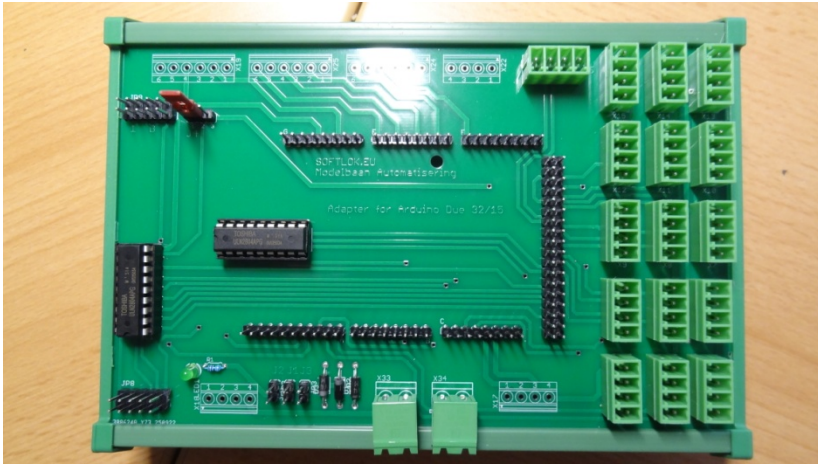

Relay (4) extension with flat cable ..... € 35,00  
(suitable for USB Box 12E/4A)

Relay (8) extension with flat cable ..... € 50,00  
(suitable for Arduino and ID Reader)

**Connection board for Arduino (Due) 32/15**

Recently, it has also become possible to use an Arduino (Due) instead of a USB box. With this board, the Arduino can easily be connected to 32 IR sensors/ Slot Sensors and 15 relay outputs.

Connection board Arduino 32/15 ..... € 44,00  
 Arduino Due ..... on request

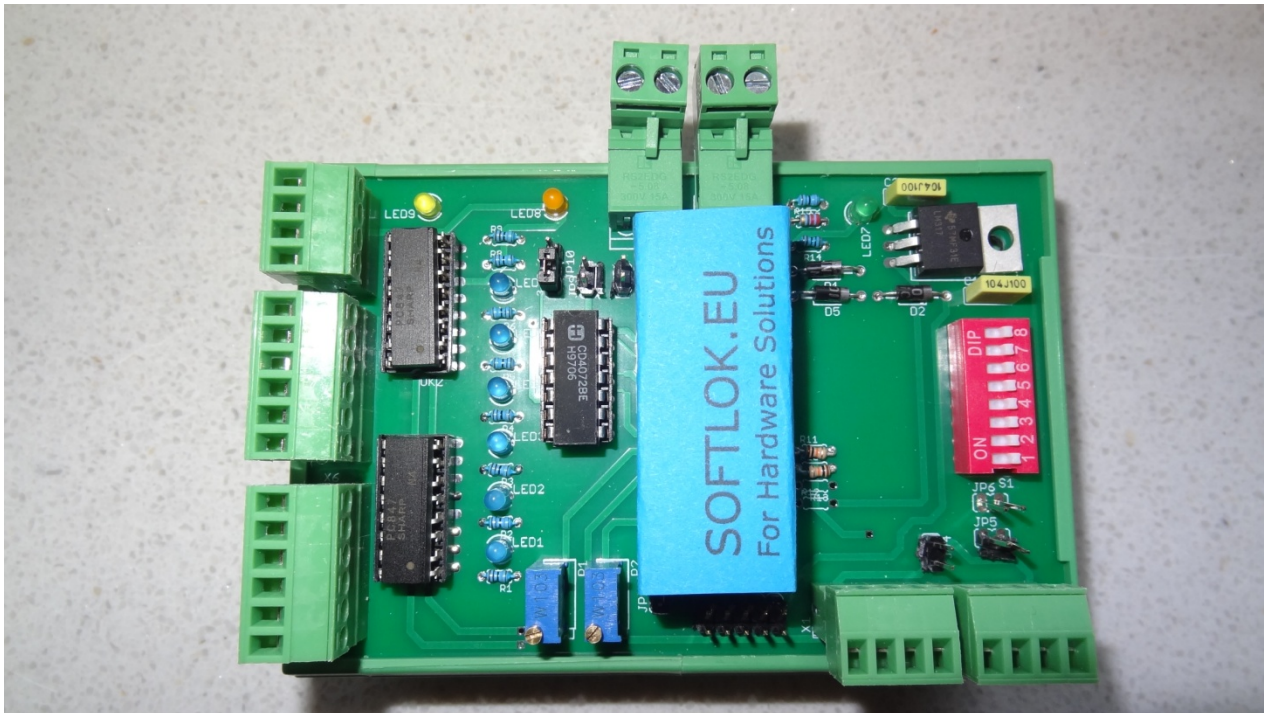

**Slot Sensor Module for Analog (standard) ..... € 49,00**

With a slot sensor module can directly switch an output.  
 (independent of a computer system).

**Slot Sensor Module for Analog (extended) ..... € 65,00**

With a slot sensor module can directly switch an output.  
(independent of a computer system).  
Equipped with connection for relay module.

**Slot Sensor Module Power Supply 15 V ..... € 7,50**

**Slot sensor ..... € 3,00**

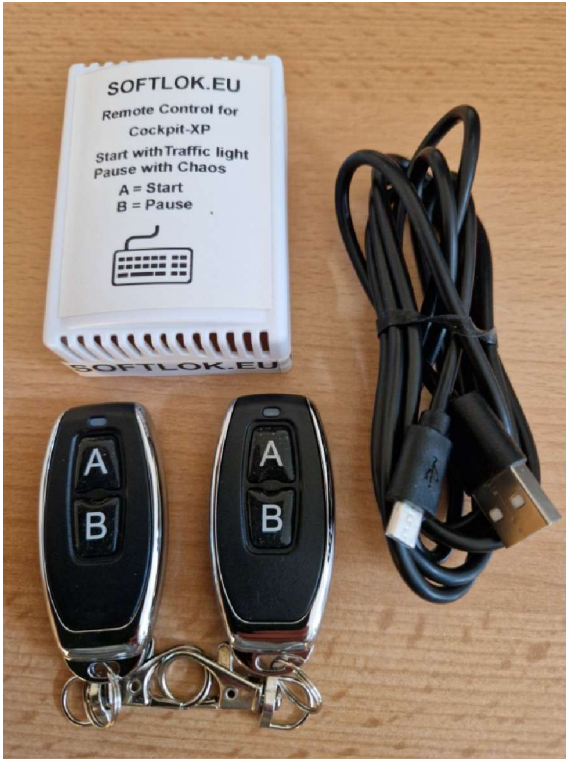

Built-in slot sensor (DIY)

Cable per meter suitable for connecting 2 Slot sensors  
Cable per meter ..... **€ 1,25**

Also available completely built into a Carrera track section (on request)

## Remote Control for Cockpit-XP

- Remote Control with 2 hand-held transmitter ..... € 49,00  
Remote Control with 4 hand-held transmitter ..... € 65,00

This remote control controls the keys 'a' and 'space bar'.

[A] = Start with traffic light (a)

[B] = Pause (space bar)

Control is via Cockpit-XP to the CU 30352

Free USB port required

**Ordering:**

Send a mail to: [roberttaconis@gmail.com](mailto:roberttaconis@gmail.com)

In which state:

- 1) What you want to order (with button colour)
- 2) Quantity
- 3) Your address details

You can transfer the total amount to account no:

DE85 28 06 99 91 00 14 83 69 00

BIC: GE NO DE F1 LT H

**In the name of R. Taconis**

**Shipping costs:**

Germany: € 7.00

Netherlands: € 9.00

Other countries on request

**Delivery time:**

After receipt of payment, expected delivery time 1...4 weeks.

Previous price lists are hereby cancelled.
